

ATTACK AND RECOVER

PASTOR TIMOTHY GREEN

When David returned from scouting out the Amalekite camp that the Egyptian slave had led them to, he gathered his men and gave them his report. He told them what he had seen. He saw their flocks and all of their stolen possessions. He saw their wives and children. Everyone was accounted for.

The attack was planned. As the sun set, David and his men crept to the top of the ridge. Down below the enemy was feasting and drinking and celebrating their victory. David prayed and then gave the command. Attack! David and his men swooped down upon the unsuspecting Amalekites. A watchman sounded the alarm, but it was too late. The Israelites were upon them. David and his men took no prisoners. David and his men avenged themselves on the Amalekites until they recovered their families and all of their possessions.

Like David and his men, let me remind you that we are in a war! We are on a battlefield. There is a real enemy who is trying his best to steal, kill and destroy. If we are going to be saved and if our families are going to be saved, we have to be willing to engage the enemy.

We need to arm ourselves with the Sword of the Spirit.

We need to call on the name of Jesus.

We need to understand the power of the blood of Jesus.

We need to utilize the weapons of prayer and praise.

The same God who helped David and his men recover all, is still alive and on the throne in 2021. He is still able to make a way where there doesn't seem to be a way.

Don't listen to the lies of the enemy. The battle is not over. The final chapter hasn't been written. There is still hope. You can still recover.

We are more than conquerors through Him!
