

## DON'T LABOR ON LABOR DAY

PASTOR TIMOTHY GREEN

Tomorrow is Labor Day and I hope you all have plans to enjoy your day and I hope that your plans do not include work.

Work is a good thing and something that we are all supposed to do but there are also times when we are suppose to take a day or two off and just relax and enjoy the life that God has given to us.

Jesus was God in flesh and He came to this earth to do a great work for mankind but even Jesus knew what it was to take time off and enjoy the company of his family and friends.

Jesus performed His first miracle, not in a church building somewhere but with his family and friends at a wedding.

He didn't go for the purpose of performing a miracle and showing everybody how powerful He was, He went because He was invited and because He wanted to go.

It's sad but true, many people's identity is tied up, not in who they are but in what kind of work they do.

Whenever it comes time to retire, many people don't know what to do with themselves because they really don't know who they even are. All that they have been for X amount of years is a plumber or electrician, or something else.

Who we are is more important than what we do!

We are human beings not human doings!

The most important thing for us to do is to be!

The Word of God tells us, "Be still and know that I am God."

I hope that you don't labor on Labor Day. Be still. Bask in the goodness of God. Spend time with your family and friends and enjoy some rest from your labors.
