

## THE ROAD LESS TRAVELED

PASTOR TIMOTHY GREEN

Robert Frost wrote these famous words, "Two roads diverged in a wood, and I took the one less traveled, and that has made all the difference.

What road are you travelling on? Are you walking on the road that everyone else in the world is walking on or are you walking on the road less traveled?

If we want to make a difference in our world, we need to walk the road less traveled. If we want to stand out for Jesus Christ, we need to separate ourselves from the crowds of this world.

The reason that we read about the people we read about in Hebrews chapter 11 is because they were people of faith. They were people walking the road less traveled.

The Bible says that we are surrounded by a great cloud of witnesses. The heroes of faith are looking down on us to see who else will be added to their number.

Enoch walked the road less traveled and because of his walk, the Lord came and got him.

Noah walked the road less traveled and because he was willing to be obedient to the voice of God, even when the rest of the world were laughing him to scorn, Noah and his family were saved.

Abraham walked the road less traveled. God told him to leave his country and his family behind and look for a city whose builder and maker was God. Abraham started walking.

Moses walked the road less traveled. He chose to suffer with the people of God rather than to enjoy the pleasures of sin for a season.

Joshua walked the road less traveled. He was determined to serve the Lord regardless of what everyone else did.

David walked the road less traveled. He danced before the Lord with all his might, not worrying about what other people on the road thought of him.

Shadrach, Meshach and Abednego, walked the road less traveled. Daniel, Peter and Paul, walked the road less traveled.

Which road are you travelling on? Are you willing to take a stand for Jesus Christ? That will make all the difference in the world and most importantly, in the world to come.
